

Center for Vaccine Ethics and Policy

UPenn | Wistar Institute | CHOP

Symposium

Global Vaccines 202X: Access, Equity, Ethics

2-4 May 2011

The Franklin Institute Science Museum

Philadelphia, USA

Final Agenda

Welcome

On behalf of the Center for Vaccine Ethics and Policy and its founders – the Penn Center for Bioethics, the Wistar Institute Vaccine Center, and the Vaccine Education Center of the Children’s Hospital of Philadelphia – we welcome you to Philadelphia and to The Franklin Institute Science Museum, our symposium partner. We appreciate your investment of time, your scholarship and your contribution to this meeting.

We also thank the many institutions and commercial organizations listed below that provided support for this meeting, as well as the many institutions that helped cover the expenses associated with the participation of their leaders.

We invite you to explore the documentation of this meeting which will be posted at the symposium’s site at:

Arthur Caplan
Penn Center for Bioethics

David Curry
Center for Vaccine Ethics and Policy

This symposium is being convened by the Center for Vaccine Ethics and Policy with support from its founders: the Penn Center for Bioethics, the Wistar Institute Vaccine Center, and the Vaccine Education Center of the Children’s Hospital of Philadelphia. Generous support has been provided by The Franklin Institute Science Museum, PATH, MVI, and IVI; and by vaccine industry leaders GSK, Merck, Pfizer, Novartis, and sanofi pasteur, with additional support from Berkley Life Sciences.

Global Vaccines 202X: Access, Equity, Ethics
2-4 May 2011
The Franklin Institute Science Museum, Philadelphia, USA

Symposium Day 1 - Monday, 2 May 2011

12:30-13:30 Informal Lunch - Patent Library

14:00-14:15 ***Convene: Welcomes, Introductions, Meeting Goals***

Frederic Bertley, The Franklin Institute
Arthur Caplan, Penn Center for Bioethics
David Curry, Center for Vaccine Ethics and Policy (CVEP)

14:15-15:00 ***Opening Keynote: Realizing the Promise of Global Vaccines***

Seth Berkley, IAVI

Introduction: Phil Johnson, Children's Hospital of Philadelphia

In his plenary address, Dr. Seth Berkley, CEO of the International AIDS Vaccine Initiative, will discuss the need to strengthen the vaccine continuum- from development to delivery- to realize the full potential of vaccines over the next decade. From the perspective of a product developer who will soon be moving into leadership of a vaccine delivery partnership-the GAVI Alliance- Dr. Berkley will discuss the opportunities and challenges in linking vaccine development, delivery, and eradication efforts, and the critical role that financing, coordination, and emerging economies will play in ensuring that the goals of the Decade of Vaccines are achieved.

Discussion

15:00-16:15 ***Session I - 202X Trends and Perspectives – Goals, Governance, Innovation, Immunization Strategy***

Moderator: David Curry, CVEP

Panel:

Kim Mulholland, London School of Hygiene & Tropical Medicine
Osagie Imasogie, UPenn Law, Phoenix IP Ventures
Tom Kosten, Baylor College of Medicine
Sandy Wrobel, Applied Strategies
JM Okwo-Bele, WHO IVB

Discussion

This symposium is being convened by the Center for Vaccine Ethics and Policy with support from its founders: the Penn Center for Bioethics, the Wistar Institute Vaccine Center, and the Vaccine Education Center of the Children's Hospital of Philadelphia. Generous support has been provided by The Franklin Institute Science Museum, PATH, MVI, and IVI; and by vaccine industry leaders GSK, Merck, Pfizer, Novartis, and sanofi pasteur, with additional support from Berkley Life Sciences.

Symposium Day 1 cont. Monday, 2 May 2011

16:15-16:45 Break

16:45-18:30 **Keynote: The Value of Evidence in Immunization**

Anne Schuchat, CDC

Introduction: Art Caplan, Penn Center for Bioethics

A strong evidence base is essential to stewardship of immunization systems and can lead to improved population health and address the needs of policy and finance decision-makers: Stewardship requires ongoing evidence that assures: benefits and risks of vaccination are appropriate; public acceptance is sustained; the vaccine supply chain is operating smoothly; program delivery is both effective and self-correcting: Monitoring and improving immunization programs includes tracking changes in disease and infectious agents through surveillance, assessing post-licensure vaccine performance (e.g., effectiveness, duration of protection), monitoring adverse events following immunization, measuring immunization uptake and targeting inequities, conducting economic analyses, and equipping programs or practices to evaluate and improve their performance: Evidence is a critical input for communication, advocacy, policy, and budgeting efforts.

Session II - **Panel: Evidence: Practice, Policy and Ethical Challenges to 202X**

Moderator: Art Caplan, Penn Center for Bioethics

Panel:

Susan Ellenberg, Penn Medicine

Josh Cohen, Tufts

Lisa Prosser, University of Michigan

Jon Andrus, PAHO

Robert Field, Drexel University

Discussion

18:30-19:30 Reception

19:30-20:30 Dinner – Fels Planetarium

Keynote: Vaccination: Personal Responsibility; Community Imperative

Art Caplan, Penn Center for Bioethics

Global Vaccines 202X: Access, Equity, Ethics
2 - 4 May 2011

Symposium Day 2 - Tuesday, 3 May 2011

07:30-08:30 Continental Breakfast

08:30-08:40 Convene/Session Updates

08:40-10:00 ***Keynote: What lies ahead for the decade of vaccines?***

Helen Rees, SAGE

Session III - ***Civil Society and Immunization Policy: Advisory Bodies/NITAGs, Access, Equity, Ethics***

Moderator: David Curry, CVEP

Panel:

Carol Baker, ACIP

Kamel Senouci, AMP, SIVAC Initiative

Cara Janusz, PAHO, ProVac

Helen Rees, SAGE

Respondent

Lois Privor-Dumm, International Vaccine Access Center (IVAC)

Discussion

10:00-10:15 Break

10:15-11:30 Session IV - ***Eradication: Ethics, Autonomy, Priorities***

Moderator: Robert Field, Drexel University

Panel:

Alan Hinman, Task Force for Global Health

David Brandling-Bennett, Gates Foundation

Claudia Emerson, MRC Global

Art Caplan, Penn Bioethics

Discussion

This symposium is being convened by the Center for Vaccine Ethics and Policy with support from its founders: the Penn Center for Bioethics, the Wistar Institute Vaccine Center, and the Vaccine Education Center of the Children's Hospital of Philadelphia. Generous support has been provided by The Franklin Institute Science Museum, PATH, MVI, and IVI; and by vaccine industry leaders GSK, Merck, Pfizer, Novartis, and sanofi pasteur, with additional support from Berkley Life Sciences.

Symposium Day 2 - Tuesday, 3 May 2011 cont:

- 11:30-12:30 **Keynote: Equity and Access through Innovation in Global Health Products and Delivery**
Tachi Yamada, Gates Foundation
The Gates Foundation's investments in Global Health focus on technology-based health solutions that will have the largest impact. When Bill and Melinda Gates called for the next ten years to be the Decade of Vaccines, they made this call based upon their belief that all lives have equal value and that vaccines are the best buy in public health. Dr. Yamada will speak about the foundation's vision for the Decade of Vaccines, focusing on how it supports the Symposium's themes of equity and access
- Moderator:* Art Caplan, UPenn Center for Bioethics
Introductions:
Dennis Wint, The Franklin Institute
Russ Kaufman, The Wistar Institute
Discussion
- 12:30-13:15 Lunch - Patent Library
- 13:15-15:30 Session V - **Case Studies: Rotavirus, Meningococcal, Malaria**
Moderator: Paul Offit, CHOP
Panel:
John Boslego, PATH
Marc LaForce, PATH
Christian Loucq, PATH
Respondents:
Patrick Zuber, WHO; Shane Green, MRC Global - Toronto
- 15:30-16:00 Break

This symposium is being convened by the Center for Vaccine Ethics and Policy with support from its founders: the Penn Center for Bioethics, the Wistar Institute Vaccine Center, and the Vaccine Education Center of the Children's Hospital of Philadelphia. Generous support has been provided by The Franklin Institute Science Museum, PATH, MVI, and IVI; and by vaccine industry leaders GSK, Merck, Pfizer, Novartis, and sanofi pasteur, with additional support from Berkley Life Sciences.

Symposium Day 2 - Tuesday, 3 May 2011 cont:

- 16:00-18:00 Session VI - ***Decade of Vaccines Collaboration: Overview/Update***
Moderator: Chris Elias, PATH
DoV Work Group Updates:
Delivery: JM Okwo-Bele, WHO, IVB
Global Access: Sandy Wrobel, Applied Strategies
Public/Political Support: Lauren Leahy, MRC Global
R&D: David Salisbury, DoH, United Kingdom
Respondent: Mark Grabowsky, NVPO
Discussion
- 18:00-19:00 Break/Hotel
- 19:00-21:00 Reception – Heart Exhibit
Dinner - Benjamin Franklin National Memorial
Keynote: Global Vaccine Access – Why Now?
Chris Elias, PATH
Introduction: Art Caplan, Penn Center for Bioethics

Global Vaccines 202X: Access, Equity, Ethics
2-4 May 2011

Symposium Day 3 - Wednesday, 4 May 2011

07:30-08:30 Continental Breakfast

08:30-08:40 Welcome and Session Updates

08:40-10:30 ***Update: Pandemic Influenza Preparedness Framework for the Sharing of Influenza Viruses and Access to Vaccines and Other Benefits: Industry Perspective***

Michael Watson, sanofi pasteur

Discussion

Session VII - ***Industry to 202X: Profit, Priorities, Public Responsibility***

Moderator: David Curry, CVEP

Panel:

Mark Fienberg, Merck

Clem Lewin, Novartis

Nick Jackson, Pfizer

Michael Watson, sanofi pasteur

Suresh Jadhav, Serum Institute

Discussion

10:30-10:45 Break

10:45-12:30 Session VIII - ***Sustainability: Models, Modes, Money***

Moderator: David Curry, CVEP

Panel:

Elizabeth Ponder, BVGH

Robert Oelrichs, World Bank

Mike McQuestion, Sabin Vaccine Institute

Wendy Taylor, USAID

Respondents: Peg Willingham, UN Foundation; Don Light, Stanford

Discussion

This symposium is being convened by the Center for Vaccine Ethics and Policy with support from its founders: the Penn Center for Bioethics, the Wistar Institute Vaccine Center, and the Vaccine Education Center of the Children's Hospital of Philadelphia. Generous support has been provided by The Franklin Institute Science Museum, PATH, MVI, and IVI; and by vaccine industry leaders GSK, Merck, Pfizer, Novartis, and sanofi pasteur, with additional support from Berkley Life Sciences.

Symposium Day 3 - Wednesday, 4 May 2011 cont:

12:30-13:30 Lunch - Patent Library

13:30-14:15 **Keynote:** David Salisbury, Department of Health, United Kingdom
Introduction: Art Caplan, Penn Center for Bioethics

14:15-15:30 Session IX - ***Political Will, Public Confidence, and Immunization Impact: Priorities, Policies, Perceptions***
Moderator: Art Caplan, UPenn Center for Bioethics
Panel:
Paul Offit, Children's Hospital of Philadelphia
Rebecca Martin, WHO Europe
Vanina Laurent-Ledru, Merck
Peter Yeo, UN Foundation
Maziko Matembe, Health and Rights Education Programme, Malawi
Peter Singer, MRC Global
Respondents:
Lois Privor-Dumm, International Vaccine Access Center (IVAC)
John Timpone, Philadelphia Inquirer
Discussion

15:30-16:00 Session X - ***Action Discussion/Closing Remarks/Adjourn***
Art Caplan, Penn Center for Bioethics
David Curry, CVEP
